Preston Lane Consulting

Preston Lane Consulting (PLC) is a customer focused consulting agency, providing technical Manufacturing Execution System consulting and training services to manufacturing companies in high-tech industries.

Our goal at PLC is to provide High Quality, Professional and Reliable MES Consulting and Training services, utilizing the skills, experience and knowledge gained through many years of PROMIS consulting.

PROMIS is the heart of a manufacturing system. It controls the manufacturing line and needs to run smoothly and effectively. To keep it running smoothly and effectively you need well trained staff.

PLC has joined forces with **Lloyd Pritchard Consulting** to provide the "PROMIS Training Assessment" Consulting Service to PROMIS Customers World-Wide.

Service Details

The PROMIS Upgrade Assessment is a 2 day on site assessment of customers training resource, including but not limited to:

- Training materials.
- Operations staff training requirements.
- Management and IT staff training requirements.
- Training resources.
- Interaction of users with PROMIS.
- Use of PROMIS client applications.
- Use of specialized PROMIS modules.
- Use of PROMIS by specialized staff—programmers, integrators, QA, QC.

On completion of the on-site Assessment, a report will be provided to the customer outlining the findings of the investigations including recommendations. This will provide a customer with suggestions for improving the skills and effectiveness of your staff as they interact with PROMIS.
